

EAR FORCE® PX4

PAIRING INSTRUCTIONS

Pairing the Headset to the Transmitter

In order to play audio, the PX4 headset must be "paired" (linked) to its transmitter. The headset and transmitter are paired out of the box. The instructions below are only necessary if pairing appears to have been lost.

Power Button /
Headset LED

Pair Button

Power/Link LED

Step 1: Headset should be powered OFF. (Hold **Power button** for 3 seconds.)

Step 2: Press and hold the **Pair button** on the transmitter for 5 seconds until the transmitter's **Power/Link LED** flashes rapidly. Release.

Step 3: Press and hold the headset's **Power button** for 6 seconds until you hear the second double-beep, then release. The **headset LED** will flash rapidly (twice per second).

Note: You will hear a double-beep (headset on), followed by an ascending chime (Bluetooth on), then the second double-beep (pairing headset).

Step 4: Within 30 seconds, the transmitter **Power/Link LED** will remain on solid, and the headset **Power LED** will blink steadily once per second, indicating that pairing was successful.
